Important Discovery Reported Out in Tooele County.

THE BLACK DIAMOND SHOWING. A BONANZA PROPOSITION Secretary Day Reports Tavorably on

FOUR FEET OF SOLID HIGH-GRADE ORE UNCOVERED.

The Whole Body Giving Average Assays of 65 Per Cent Copper and the time. \$177 in Gold-Murray Citizens Interested in the Ground-One-Cent Stocks Set the Pace on the C Stock Exchange-The Black Diamond Showing-Secretary Day Reports Favorably on the Stockton Mine-The Egyptian Incorpor-

The wires have been loaded of late with reports of big gold and copper strikes in Wyoming and Montana, until it began to look as if Utah had rich discoveries were concerned.

Not so, however, and the good name une the state has been saved from this lisgrace, as it was learned yesterday hat within the past two weeks a most and it is believed that when the its of the strike are made paid.c. alls of the strike are made paided, a section will enjoy a gentine boom. He listuid was informed on excel-tauthority vesterday that in a propy in the locality mentioned, about or miles east of the Silver King ie, on Government creek, a four-foot ty of ore has been uncovered that we average assays of 65 per cent per and \$177 in gold to the ton. his mire was criticipally owned by

wis mine was principally owned by Williams brothers, blackwhiths, at ray, until a short time ago, when a pany was organized for its more ough development.

company was organized for its more thorough development.

Prior to this time same fine ledge matter had been found up on the side of a high mountain on which the group is located. Soon after the incorporation of the company, however, a tunnel was started bear the foot of the hill, and, after running this in a distance of 210 feet, the ore body was uncovered, the formation being a contact in grandic and perphyry, and repeated sampling of the vein clear across his siven average assays as above stated, so that it would seem as if this was a verifiable bomnora, and no mistak, and, as the hedge was cut at a depth of about 400 feet, it is evident that an immense amount of stoping ground will enable the company to take out a mail fortune within a short time, and it is understood that a carlond shiphent is now rendy for the market and, with such a body of ore to go on, it ill require no great effort to keep the oad hot with consignments of this ligh grade rock.

According to The Hamiltonian in the index of the content of the prior of the content in mining prevailing impression there that the mine is the making of a heavy producer and shipper, and that it will soon rank as a dispersable there that the mine is the making of a heavy producer and shipper, and that it will soon rank as a divident-payer.

The Egyptian Incorporates.

The Egyptian Incorporates.

The Egyptian Incorporates.

The Egyptian Mining commany, whose property is located in Big Cottonwood mining district, filed articles of incorporation yesterday with the county clerk. The capital stock is placed at \$50,000, in shares of \$1 cach.

B. P. Nevine is president; Mark Stanley, vice president; William Crome, secretary; R. S. Jones, treasurer, and three, with Walter Crome, Albert for the control of directors.

Salt Lake Mining & Imp. association, Delinquent shares are now for sale at the office of the association, 424 and 425 Atlan block.

Another lot of copper from the High-land Boy mine at Bingham is now en route to the Valley sampler. This ore carries good paying values in copper, as well as some gold, and while no stoping is being done the company is Diamond Mining company, whose property is located at Stockton, in Toocle county, returned yesterday from an inspection of the mine, in which a rich strike was made a week or ten days ago, as chronicied in The Herald at the time.

In speaking of the condition of the property, Mr. Day corroborates all that has been said concerning it in these

the time.

In speaking of the condition of the property, Mr. Day corroborates all that has been said concerning it in these columns, and he expressed himself as being highly pleased with the future outlook for the mine, in which, at the present time, a five or six foot body of good pay ore is exposed, which will run from 35 to 35 in silver and lead to the When the strike was first made on the Honorine vein from a drift from the lottom of the shaft, the vein was about three feet wide, but now, after follow-ing it for a distance of 12 feet, it has widened out as above stated, the whole heady heavy now and it is expected. of the incorporation. The publication of all the details in the matter would make intensely interesting reading, for the scheme was deeply laid and well carried out.

body being pay ore, and it is exposted that within a few feet more the north and south cross vein will be encountered, & 1 that at the juncture an immense pocket of high mineral will be Colonel Andrew Corry, one of the foremost citizens of Iron county, who is in from Cedar City on mining busi-ness, states that all is life and activity in State Line district on account of the assurance that a quartz mill will soon be installed in the camp. The colone is connected with the Big Fourteen the first of next week, a large portion of which is now on the dump, and con-simments will doubtless follow each other with gratifying regularity herethe designt is a contact porthyry.

Mr. Day states that very favorable reports have been received from the Hercules, close by, and that the owners are shinning regularly, while considerable activity is noticeable throughout mad rush for investment there

Colonel R. D. Woodruff, who came in monthly shipment of cyanides from the Northern Light, states that the property is looking in fine shape, and that within about 20 feet more the inclination of the more than the lower workings of the min will be completed, when the plant car begin operations on a fine class of milling gold ore. Twenty-two out of the 28 tanks at the mill are now in use and as soon as the mill are now in use and as soon as the mill is run to its full capacity on the large bodies of high grade gold ore exposed in the lower workings of the mine, the company will undoubtedly be able to make a showing of which every stockholdes. much fevorable comment in mining circles around Stockton, and it is the privaling impression there that the mine is the making of a heavy producer and shipper, and that it will soon rank as a dividend-payer.

Mining is often given a black ever through the operations of secolic who fail to use the same precaution in mining matters that they would give to a trifling business affair, and then the mining industry is cursed and called illegitimate. An instance of the carelessness with which some eastern people do business in the mining line is illustrated by a circumstance which came to the notice of a representative of this paper a few days ago. It seems that some people in the east, who have more money than brains, in some way became possessed of some Utah prospects which they had never seen, and in order to develop the same they sem \$7,000 to a mining man whom they did Mining is often given a black \$7,000 to a mining man whom they did not know and had never seen, and now they are making inquiries regarding the property, the man and the money and cannot find either. Another in-stance of the wisdom of Solomon when The ore and bullion receipts yester-Bamberger & McMillan, ores, \$11,276. he said: "A fool and his money are soon parted."

NO WASTE OF WORDS.

George H. Robinson, the well known mining man, was expected home from Moutans last night.
